PART ECO

Option from groundhog

Featuring

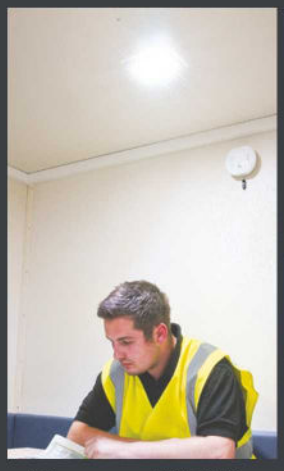
BATTERY POWERED

LED lighting & USB sockets

The latest concept in 12V technology delivers power to the LED lighting and USB sockets without the need for the generator to be running, resulting in **lower CO_2 emissions and reduced generator runtime**.

Part Eco units are fitted with 12V LED lighting complete with PIR sensors to automatically sense movement, turning lights on or off as required.

Situated in the canteen, toilet and generator room, this feature gives owners and end users savings by way of **reduced fuel usage**, **reduction in generator servicing**, **longer generator life**, **fewer breakdowns** and **reduced noise pollution**.



Battery powered LED lighting

Battery powered 12V socket and USB
