Innovative, functional, environmentally efficient and cost effective.

The **i360** offers the legendary robustness and ease of use of the Fusion Pulse ***groundhog*** mobile welfare unit whilst offering an enhanced green environmental solution. Offering up to **100% reductions in carbon emissions** whilst on board power unit is not in use.

The i360 is designed to run in summer months without the onboard power unit running. During the winter period and night use the power unit will still be required, with a reduction in running of up to 90% when compared to the fusion pulse welfare unit. The i360 has a compact overall size for towing, with a large spacious welfare area which can accommodate up to 6 people - **ideal for flexible on-site applications, helping you achieve realistic carbon reduction goals**.
